

AWAD Caravans Company began manufacturing wooden caravans in 1970, and has developed into manufacturing caravans, metal construction, and supplying goods and services to companies. We provided caravans, materials, and services to many companies and organizations everywhere, and our caravans spread to countries around the world such as Lebanon, Jordan, Iraq, Poland, Croatia, Tanzania, and Nigeria.

Due to our constant aspiration for development, our company has become a leading company in the field of providing construction, rehabilitation, pumping station, sewage network and solar power system works for various industries and sectors. With years of experience in this field, we have established ourselves as a trusted and reliable partner for customers who require high-quality, cost-effective solutions.

Our Services:

Prefabs works (Caravans): We have many years of experience in designing and building caravans, including fixed and mobile caravans for various applications and sizes, including residential buildings, latrines, clinics, containers...etc. Our team of experts ensure that each mobile home is built to the highest standards, using the latest technology and equipment.

Construction: We specialize in the construction of various types of facilities, including buildings, commercial structures, and residential complexes. Our team of experienced engineers and construction professionals ensures that every project is completed to the highest standards, on time and within budget.

Rehabilitation: We provide rehabilitation services for existing structures that require repair or renovation. Our team has the expertise to assess the condition of the structure and restore it to its original condition or improve its functionality.

Pumping Station Works: We have extensive experience in the construction and operation of pumping stations for various applications, including water supply, wastewater treatment, and industrial processes. Our team of experts ensures that every pumping station works efficiently and effectively, meeting all regulatory requirements.

Solar Power System Works: We have experience in the design, installation, and maintenance of solar power systems for various applications, including residential, commercial, and industrial. Our team of experts ensures that every solar power system works efficiently and effectively, meeting all regulatory requirements.

Sewage Rehabilitation Works: We provide rehabilitation services for sewage systems that require repair or renovation. Our team has the expertise to assess the condition of the system and develop a comprehensive plan to restore it to its original condition or improve its functionality.

Providing and supplying Equipment:

Such as: IT equipment (Laptops, Desktop, Printers, UPS, Projector, ...Etc.), Medical equipment (Devices, Surgical Supplies (Orthopedic, Neurologic,

...etc.), Surgical Consumables, Dental units, stationary, refreshments, PPEs (Personal Protective Equipment), Wood, Iron, Safes, Office supplies ... Etc.).

Our Approach:

At our company, we believe in a client-centric approach that focuses on understanding our clients' needs and delivering customized solutions that meet their specific requirements. We work closely with our clients throughout the project lifecycle to ensure that we deliver the desired results.

Our team of experienced professionals uses the latest technology and equipment to ensure that every project is completed to the highest standards. We also prioritize safety in all our works, ensuring that all personnel are trained and equipped with the necessary safety gear to minimize risks.

Our Comment:

We are committed to delivering high-quality services that exceed our clients' expectations. We strive to build long-term relationships with our clients by providing exceptional customer service and support. We also prioritize sustainability in all our works, ensuring that our projects have a minimal impact on the environment.
